

WHAT IS NODES?

The Cooperative Studies Program (CSP) Network of Dedicated Enrollment Sites (NODES) is a consortium of VA Healthcare Systems that have facility-based teams dedicated to conducting CSP studies to enhance the overall performance, execution and compliance of CSP multi-site research.

NODES shares facility-derived best practices and provides local insights to CSP partners for efficient management and conduct of all study activities.

ACTIVITIES AND METHODS

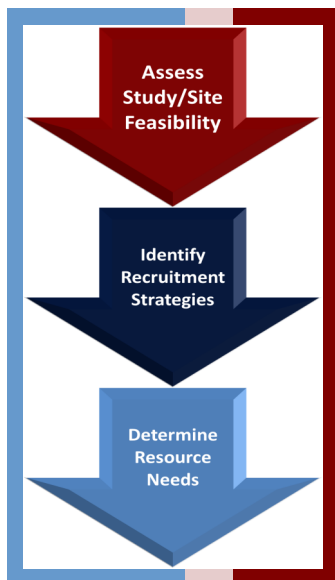

CSP COLLABORATION

NODES works with key stakeholders throughout the lifecycle of a study.

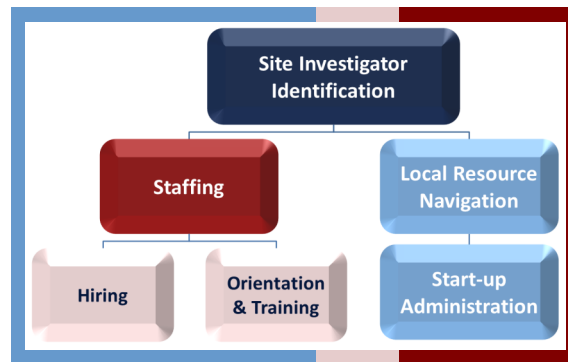

STUDY DESIGN AND PLANNING

NODES provides recommendations from the site perspective.

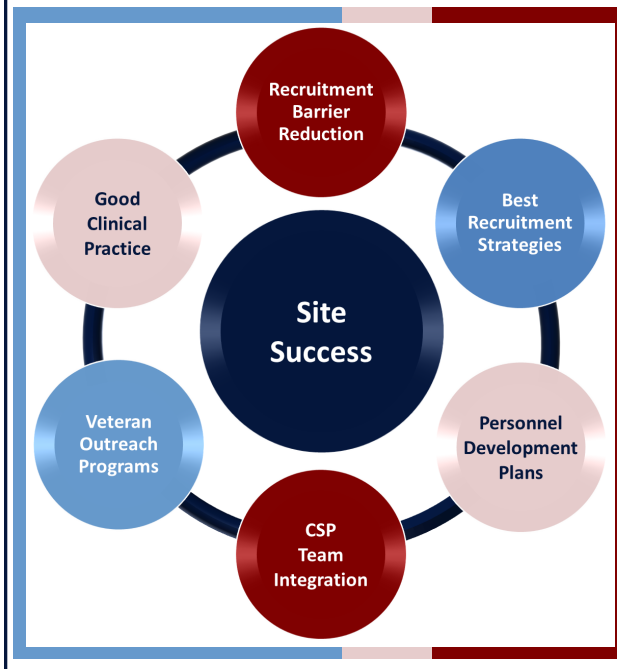

STUDY START-UP

NODES reduces logistical and staffing barriers.

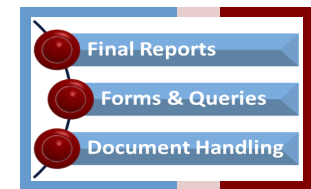

ACTIVE STUDY PHASE

NODES strengthens local CSP study teams to achieve goals.

STUDY CLOSE-OUT

NODES helps facilitate study close-out activities.

COMMUNITY NETWORKING

NODES builds stronger relationships.

ACHIEVING EXCELLENCE

NODES achieves its objectives in all areas through innovation and continuous improvement.
